

**National Interagency Coordination Center
Incident Management Situation Report
Monday, September 30, 2013 – 0530 MT
National Preparedness Level 1**

National Fire Activity

Initial attack activity: Light (44 new fires)
 New large fires: 0 (*)
 Large fires contained: 0
 Uncontained large fires: ** 2
 Area Command Teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 0
 Type 2 IMTs committed: 0

** Uncontained large fires include only fires being managed under a full suppression strategy.

Predictive Services Discussion: For the latest daily weather forecast, please consult the National Weather Service graphical forecasts for the U.S. at: <http://graphical.weather.gov/sectors/conusWeek.php#tabs>

<http://www.predictiveservices.nifc.gov/outlooks/outlooks.htm>

Today's discussion is from the
Fireline Safety Category.

IN COUNTRY NOT SEEN IN DAYLIGHT

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing overhead/resource leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
 - Identifying prominent geographic features
